## OBJECTIVE

---

I am seeking a new and challenging opportunity in a reputable institution where I can further develop my skills, build my career, and gain valuable experience. I aim to apply my technical and creative abilities effectively while contributing to the growth and success of the organization.

## SKILL & ABILITIES

---

Skilled in graphic design using tools such as Adobe Photoshop and Adobe Illustrator, with experience creating logos, posters, brochures, and book covers. Capable in modern web design, focusing on clean layouts and user-friendly interfaces. Additionally, I have foundational knowledge as a Python developer, able to build simple programs and solve problems with logical code structures.

## PROFESSTIONAL EXPERINCE

---

### **Graphic Designer**

*2025 – Present*

Worked as a graphic designer creating logos, posters, brochures, book covers, and various digital designs. Skilled in using tools such as Adobe Photoshop and Adobe Illustrator to produce high-quality visual content for clients and organizations.

### **Online English Teacher**

*2025 – Present*

Taught English to students through online classes, focusing on grammar, vocabulary, speaking skills, and helping learners improve their communication confidence.

### **Coding Instructor**

*2025 – Present*

Worked as a coding teacher in an online course, teaching Python basics, logical problem-solving, and foundational programming concepts to students.

## EDUCATION

---

### **High School Graduate — 2022**

Completed secondary education with strong academic performance.

### **English Program — 2024**

Studied English at Atarud Alinua, focusing on communication and grammar skills.

### **Graphic Design Training — 2024 to Present**

Currently completing a graphic design program at Abaad Organization, learning professional tools and creative design principles.

### **Web Development — 2024 to Present**

Studying web development through an online learning platform to build skills in modern website creation and frontend development.

### **Python Programming — 2025**

Studied Python programming at Code to Inspire, focusing on foundational coding and problem-solving.

### **Marketing Course — 2025**

Completed a marketing program at Hazara Institute, gaining knowledge in promotion, strategy, and business communication.

### **Computer Science Studies — 2025 to present**

Enrolled at the Women Online University majoring in Computer Science, focusing on digital skills and IT fundamentals.

### **Bachelor of Business Administration (BBA) — 2025 to Present**

Currently studying BBA at University of the People to develop strong business and management skills.

At the same time, I am currently learning videography and video editing through Udemy and Coursera, and I have completed photography training at Agaaz Organization.
